## KEY RISKS

The value of your investment, and any income from it, can fall as well as rise. You may not get back the full amount you invest. Certain securities could become hard to value or sell, or they may cease to trade altogether. Bonds with a longer maturity period are more sensitive to changes in interest rates. Fluctuations in exchange rates may cause the value of your investment to rise or fall. Please refer to the Prospectus and Key Investor Information Document for further risks.
